CHARGING YOUR CASE

- Charge on the go charging case, with the included micro USB cable for 2-3 hours.
- When all LED's are illuminated battery case is fully charged.
- To check the battery level, press the power indicator(4) button located inside the case.

RED- Charging **Flashing BLUE**- Link Mode **Solid BLUE**- Paired **Flashing RED** - Battery Low

CHARGING YOUR EARBUDS

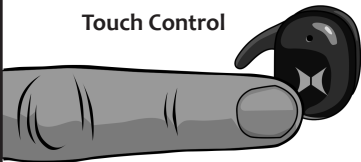

- Place Right and Left Earbuds in battery case charging cradle⁽⁵⁾ to properly charge.
- Earbuds LED indicator will illuminate Red to indicate that they are charging properly. When LED turns off⁽⁶⁾ earbuds battery is fully charged.

POWERING ON

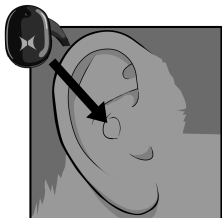

Touch Control

- Remove both earbuds from charging cradle⁽⁵⁾ and power on by touch pressing the “X” logo for 3 seconds⁽⁷⁾.
- Earbuds will flash Blue to indicate that they are in Link mode. Right & Left earbuds will automatically link together and LED on both earbuds will remain solid. ⁽⁷⁾⁽⁸⁾.

EARBUD PLACEMENT

Insert

Insert the earbud into your ear.

Rotate

Rotate the earbuds to fit snug inside your ear canal.

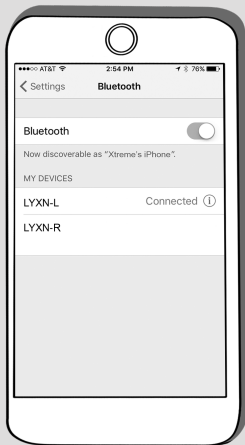

Tuck

Tuck the tip of the earwing⁽¹⁰⁾ into the ridge of your ear.

*Note: Please avoid touching the “X” logo while positioning in ear, to prevent the earbuds from unintentionally powering down.

PAIRING

- Enable Bluetooth search mode on your mobile device and search for pairing name “LYNX-R” or “LYNX-L”, and select it on your mobile phone. Once the earbuds are successfully connected a notification will sound.
- Now you can enjoy your true wireless Bluetooth Earbuds.

***Note:** Once earbuds have been initially paired successfully with your mobile device they will automatically pair the next time they are powered on.
