Charging Bluetooth® Headset

- To charge your GHOST II Bluetooth® Headset, connect the supplied cable to the Micro-USB (5) charging port and connect the other end to a USB power outlet (5V adapter not included) for a minimum of 3 hours. LED is red when charging and turns off when fully charged.
- For best performance, please make sure battery is fully charged before use.

Operating Bluetooth® Headset

1. Turn the GHOST II Headset on by holding the Multifunction Button (3) until the LED lights (1) begin flashing blue and red.
2. The headset will enter pairing mode. Enable Bluetooth® search mode on your audio device and search for pairing name "GHOST II" and select it on your audio device. Once the GHOST II Bluetooth® Headset has successfully connected, your device will state that the device has been connected. The LED will flash blue.
3. Press the Multifunction Button (3) to answer calls, pause and play and hang up call.
4. To change to the next track, short press the " + " (4) To raise volume, long press the volume + Button (4)
5. To change to the previous track, short press the " - " (2) To lower volume, long press the Volume – Button (2)
6. To power down the headset, hold the Multifunction button (3) for 3 seconds until the device "chimes". The LED light indicator will remain off.

Using the Voice Assistant

1. To activate Siri® or Google® virtual assistant, double-press the Multifunction Button (3).
2. Wait for the chime sound, then begin speaking. You can say commands like, “What is the weather today?” or “Text Mom, I’ll be there at 6.” Refer to your device’s manual for a full list of available voice command options.
3. To enable “Ok Google” or “Hey Siri” always listening feature on your phone, refer to your phone’s manual for step by step setup instructions. Once enabled, say “OK Google” or “Hey Siri” to activate the voice assistant and speak directly to your phone through your headset when prompted. (Note: Your device must be in range to use its “always listening” microphone to trigger the voice assistant, once its triggered you may begin speaking through the headset when prompted)

(For Android devices, Google Assistant will be activated and for Apple devices, Siri voice assistant will be activated.)
