

WIRELESS CHARGER CAR MOUNT QUICK START GUIDE

1

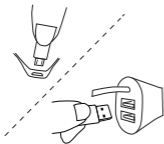

Universal phone mount fits most phones.

2

Wipe down surface with a clean cloth and press suction cup down with suction cup clamp up. Once firmly in place press suction clamp down to close and secure. Suction to dashboard or any glass surface.

3

Plug included Micro USB cable into mount and car charger USB port. (use 2.4A car charger for optimal charging performance)

4

Place Qi enabled smartphone into mount by expanding spring loaded adjustable arms so that the device fits firmly in the center.

5

LED ring indicator will light up blue when charging and red when not charging.
