## KNOW YOUR FACE TRACKER MOUNT

## USING YOUR FACE TRACKER

- 1. Install the batteries:** Open the battery cover, install 3X AA alkaline batteries according to the direction marked in the battery and then replace the battery cover.
- 2. Install mobile phone:** Open the mounts arms and slide the mobile phone into the extendable arms with the mobile phone facing forward.
- 3. To Power on:** Press and hold the power button until the red light flashes.
- 4. To Power off:** Press and hold the power button until the red light goes out.

## CONNECTING YOUR PHONE AND THE MOUNT

1. Make sure that your phone's Bluetooth and location settings are ON.
2. Make sure the mount is powered on. The red LED will be flashing.
3. Activate the App.
4. The App will automatically connect to the mount in approximately 3 to 6 seconds. The mounts blue LED will flash and the App's Bluetooth indicator will display.

*Note: Do not try manually pair the phone to the mount. This is not the method for pairing. The phone and mount will automatically connect when the App is activated.*

### Tips:

1. Some mobile phone models may have Bluetooth link delay. Please wait patiently for Bluetooth automatic connection to succeed or restart the App and to retry automatic connection.
2. The mount will automatically shutdown when it loses Bluetooth connection for approximately 40 seconds.
3. The App will follow faces and not other objects and it can lose track if movement is too fast.

# Getting started with the LIVE360 App

Download the Live360 App from the Apple App Store (iPhone) or from the Google Play store, or by scanning the QR code in the user manual. Make sure that your phone's Bluetooth is turned on. When you open the App, it will automatically pair with the XSS5-1012-BLK Face Tracker Mount when the mount is powered on.

## FOR AN ANDROID PHONE:

1. Open the App.
2. Select "Auto Camera" of the camera you wish to use.
3. Select "Camera" - "Start Follow".

4. If you get a pop up message, select on "Start Now", or similar message, to allow the App access to your phone's functions.

5. On the next screen, select "Start Live" to activate the video/recording functions.

6. The Android Phone will launch the phone's camera mode\*. Select "Photo" or "Video". The mount will now rotate in both modes to follow a face, and will allow you to take photos or record video.

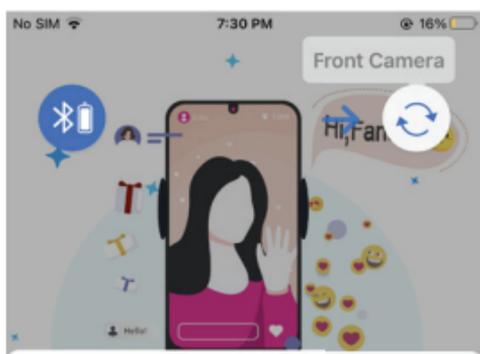

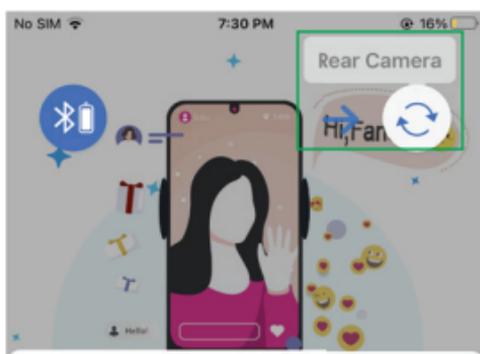

\* The Live 360 App uses the phone's own camera app. So, confirm that the phone's camera app is active if a picture is not being displayed.

### FOR AN APPLE IPHONE:

1. Open the App

2. Select "Rear Camera" or "Front Camera"

3. For Photos: select "Camera Follow" - "Take Pictures".
